

Povidine Iodine Scrub 7.5%

Cleaners & Disinfectants

Product Description

A germicidal cleanser for pre and post-operative skin washing or shampooing of animals to eliminate bacterial and fungal skin infections. Povidine Iodine Scrub is also routinely used to help prevent infection in cuts, scratches, abrasions, and burns.

Non-staining to skin, hair, and natural fabrics.

Directions For Use

As a surgical scrub: Wet hands with water. Spread about 5 cc (1 teaspoonful) of scrub over hands and forearms. Without adding more water, scrub thoroughly for 2-1/2 – 3 minutes. Use a sponge if desired; clean thoroughly under fingernails. Add water and develop suds, then rinse thoroughly. Repeat process.

As an antiseptic hand wash: Wet hands with water and pour about 5 cc (1 teaspoonful) of scrub on hands. Rub hands vigorously together for at least 15 seconds, covering all surfaces. Rinse and dry with a disposable towel.

Preoperative skin preparation: After the surgical area has been clipped, wet with water. Apply scrub (1 cc to cover 20-30 square inches), develop lather, and scrub thoroughly for about 5 minutes. Rinse using sterile gauze saturated with water. The area may then be painted with betadine solution and allowed to dry.
